

Shreya Das

Aspiring Full-Stack Developer | Backend APIs, React, and Scalable Web Applications
Bangalore, India | +91 8965807402 | shry.ds03@gmail.com | [GitHub](#) | [LinkedIn](#)

SKILLS

Languages: Python, C++, C, JavaScript

Backend: FastAPI, REST APIs, JWT Auth, SQLAlchemy, Pydantic, Express

Frontend: React, Vite, React Router, HTML, CSS, Axios

Databases: PostgreSQL, MongoDB, SQL

DevOps / Tools: Git, Docker, AWS, Alembic

Automation / EIE: PLC Programming, MATLAB, LabVIEW, IR Sensors, Robot Control

EDUCATION

M.S. Ramaiah Institute of Technology

B.E. Electronics and Instrumentation Engineering (2023 - 2027)

CGPA: 8.56

PROJECTS

Demo Social Media App API — *FastAPI, PostgreSQL, SQLAlchemy, JWT, Alembic, AWS S3* [Project Link](#)

- Built a REST API with login, JWT authentication, and protected routes.
- Implemented posts, comments, likes, and user authorization using PostgreSQL and SQLAlchemy.
- Added AWS S3 image uploads with validation, UUID filenames, and Pydantic schemas.

Demo Social Media UI — *React, Vite, React Router, Axios, Context API* [Website Link](#) [Project Link](#)

- Built a Vite React frontend with feed, post, auth, create-post, and profile pages.
- Connected Axios API calls for posts, comments, likes, and user sessions.
- Used React Context to manage auth and post state across the app.

Sensor-Guided Robotic Positioning System for Stereotactic Applications — *Epson VT6L, Python, CAD, IR Sensors, Robot Control* [Project Link](#)

- Built a low-cost CAD-to-robot positioning workflow.
- Applied fiducial registration and coordinate mapping to generate robot poses.
- Integrated IR sensors with Python and robot communication for movement validation.

HACKATHON / EXTRA-CURRICULAR

MSRIT Intra-College Hackathon — Participant

- Built a women's community platform for videos, tutorials, and resources.
- Used React, JavaScript, Axios, Node.js, Express, MongoDB, and JWT.
- Handled video uploads with Multer and Cloudinary, storing metadata in MongoDB.

CodeRIT Club — Member

- Participated in coding discussions, peer learning, and practical project-building activities.
